World Championships, Continental Championships and International Championships. The following shall be the regulations regarding the weigh-in:

- The contestants in all weight divisions shall be required to be ready to weigh in on the first morning of the competition or day before the first competition day as specified by IFMA or the Continental Bureau on the competition schedule at an hour appointed between 7 am and 10 am. On the following competition days only those who are drawn to box shall appear at the same time between 7 to 9 am. It shall be in the power of the Organising Committee or other IFMA authorised delegates to relax this condition

slightly if unavoidable delays occur. Competition shall not commence earlier than three clear hours after the time appointed for the close of the weigh-in or such shorter time as the Organising Committee or other IFMA authorized delegates after consulting the Medical Commission shall decide is suitable and not liable to be detrimental to an athlete taking part in the early bouts of the forthcoming boxing session.

- Delegates authorised by IFMA shall supervise the weigh-in. A delegate of the National Association of each contestant may be present at the weigh-in but may not in any way interfere.
- The weight registered at the official weigh-in on the first day decides the weight class of the athlete for the whole of the competition but he/she will still be required to weigh-in each day on which he/she is due to box to ensure that his/her actual weight on that day does not exceed the maximum of his weight class. A contestant may only box in the weight for which he/she has qualified at the official weigh-in.
- A competitor will be allowed to present himself/herself at the official scales only once at the weigh-in each day. The weight recorded on that presentation is final. On the first day, it is permissible, however, for the National Team-manager of a competitor who has failed to make the weight at the original weigh-in to enter him/her there upon for the higher or lower weight for which he/she is qualified. But only if this country has a free place at that weight and the weigh-in is not yet closed. It is also permissible for a National Federation to substitute one athlete for another at any time up to the close of the first weigh-in and the medical examination, provided that in any competition where reserves are permitted, the substituted athlete has been entered as a reserve for the weight or any other weight.

If there are an odd number of byes, the athlete who draws the last bye will compete in the second series against the winner of the first bout in the first series. No medal shall be awarded to an athlete who has not boxed at least once.

- 19.7 The Second time an athlete goes down without a fresh hit: If an athlete is “down” as the result of a hit and the bout is continued after the count of BAED (8) has been reached, but the athlete falls again without having received a fresh hit, the referee shall continue the counting from the count of PAED (8) at which the athlete has stopped.
